Tectonophysics Volume 212

Special Issue
Lithospheric Analysis of Magnetic and Related Geophysical Anomalies (edited by Ralph R.B. von Frese)

Preface vii
Evidence of crustal thinning beneath the Limpopo Belt and Lebombo monocline of southern Africa based on regional gravity studies and implications for the reconstruction of Gondwana
O. Gwavava, C.J. Swain and F. Podmore (Harare, Zimbabwe) and J.D. Fairhead (Leeds, UK) 1
Interpretation of satellite magnetic anomalies over the West African Craton
P.B. Toft (Montreal, Que., Canada), P.T. Taylor (Greenbelt, MD, USA), J. Arkani-Hamed (Montreal, Que., Canada) and S.E. Haggerty (Amherst, MA, USA) 21
The Agulhas Magsat anomaly: implications for continental break-up of Gondwana
L.A.G. Antoine and A.B. Moyes (Johannesburg, South Africa) 33
A possible impact origin for the Bangui magnetic anomaly (Central Africa)
R.W. Girdler (Newcastle upon Tyne, UK), P.T. Taylor (Greenbelt, MD, USA) and J.J. Frawley (Dunkirk, UK) 45
Analysis of MAGSAT magnetic contrasts across Africa and South America
D.N. Ravat (Carbondale, IL, USA), W.J. Hinze (West Lafayette, IN, USA) and R.R.B. Von Frese (Columbus, OH, USA) 59
Marine magnetic anomalies over the Lord Howe Rise and the Tasman Sea: Implications for the magnetization of the lower continental crust
B. Schreckenberger and H.A. Roeser (Hannover, Germany) and P.A. Symonds (Canberra, A.C.T., Australia) 77
Geomagnetic anomaly maps of Central Victoria Land (East Antarctica) from ground measurements
E. Bozzo (Genova, Italy) and A. Meloni (Roma, Italy) 99
A deep crustal model to explain regional aeromagnetic and gravity anomalies in southwest England
F. Al-Rawi (Baghdad, Iraq) and M. Brooks (Cardiff, UK) 109
Magnetic anomaly modeling at the Indo Eurasian collision zone
M. Rajaram and R.A. Langel (Greenbelt, MD, USA) 117
A preliminary study of satellite-derived gravity and magnetic anomalies of India and contiguous regions
B.P. Singh and N. Basavaiah (Bombay, India) and M.N. Qureshy (New Delhi, India) 129
A review of the geophysical constraints in modelling the Gondwana crust in India
M.N. Qureshy (New Delhi, India) and Iqbaluddin (Aligarh, India) 141
Mid-continent gravity "high" of central India and the Gondwana tectonics
D.C. Mishra (Hyderabad, India) 153
Crustal structure associated with Gondwana graben across the Narmada–Son lineament in India: an inference from aeromagnetics
D. Atchuta Rao, H.V. Ram Babu and G.D.J. Sivakumar Sinha (Hyderabad, India) 163
Geophysical exploration for coal-bearing Gondwana basins in the states of West Bengal and Bihar in northeast India
S.N. Saha, A.K. Roy, C.V. Brahman, C.B.K. Sastry and M.K. De (Calcutta, India) 173

Research Papers

The Ayia Varvara Formation of SW Cyprus: a product of complex collisional tectonics
J. Malpas (St. John's, Nfld., Canada), C. Xenophontos (Nicosia, Cyprus) and D. Williams (St. John's, Nfld., Canada) . 193
Geology of the d'Entrecasteaux–New Hebrides Arc collision zone: results from a deep submersible survey
J.-Y. Collot (Villefranche/mer, France), S. Lallemand (Paris, France), B. Pelletier and J.-P. Eissen (Nouméa, New Caledonia), G. Glaçon (Marseille, France), M.A. Fisher and H.G. Greene (Menlo Park, Calif., USA), J. Boulin, J. Daniel and M. Monzier (Nouméa, New Caledonia) 213
A gravity model of the crust beneath the Tertiary Piemonte basin (northwestern Italy)
M. Miletto and R. Polino (Torino, Italy) 243
A gravity model for the lithosphere in western Kenya and northeastern Tanzania
A.A. Nyblade and H.N. Pollack (Ann Arbor, MI, USA) 257
A crustal study off Lofoten, N. Norway, by use of 3-component Ocean Bottom Seismographs
R. Mjelde and M.A. Sellevoll (Bergen, Norway), H. Shimamura and T. Iwasaki (Sapporo, Japan), and T. Kanazawa (Tokyo, Japan) 269

Seismic velocity structure of the crust beneath the Japan Islands
D. Zhao, S. Horiuchi and A. Hasegawa (Sendai, Japan) 289
Seismicity of the Cameroon Volcanic Line, 1982–1990
C.T. Tabod, J.D. Fairhead and G.W. Stuart (Leeds, UK), B. Ateba and N. Ntepe (Buea, Cameroon) 303
Ice age as a trigger of active Quaternary volcanism and tectonism
M. Nakada and H. Yokose (Kumamoto, Japan) 321
Relations between sill intrusions and bedding-parallel extensional shear zones in the Mid-continent Rift System of the Lake Superior region
M.A. Antonellini and F.W. Cambray (East Lansing, MI, USA) 331
The autocorrelation function: an image processing tool for fabric analysis
R.P. Heilbronner (Basel, Switzerland) 351
A quantitative study of hinge thickness of natural folds: some implications for fold development
A.R. Bhattacharya (Lucknow, India) 371

Book Reviews 379
